

# MASTERING CLASSROOM MANAGEMENT

## Management Training

The primary goal of the course is to introduce a practical model for understanding and deconstructing the tasks involved in the process of classroom management, and learning practical, easy-to-implement strategies that enable teachers to spend more time teaching rather than disciplining.

This course helps teachers learn to effectively manage a classroom.

## Modules

- ▶ Common misconceptions about classroom management
- ▶ The role relationships play in one's classroom management plan
- ▶ Strategies for dealing with minor and more serious misbehaviour
- ▶ Know how to develop effective rules and routines
- ▶ Techniques for preventing misbehaviour
